1. Targeted Survey: We discussed the possibility and logistics of a targeted survey that would be sent out to all town residents over 50 years old with specific questions we come up with that will help us find out the statistics we need to help advocate and advise on the needs of older town residents.
2. Housing: We discussed the new Housing Commission and the possibility of collaborating with them on efforts to advise the town on need for more affordable housing. We also discussed ways to facility use of existing town structures for possible housing before sale to third parties.

The meeting adjourned at 1:15PM.

Respectfully submitted,
Rebecca Hajosy
